 <https://e0mr.github.io/Portfolio>

A front-end developer skilled in building pixel-perfect, responsive web applications using modern technologies, staying up to date with the latest trends and best practices, and enjoying facing challenges as perfect opportunities for continuous learning and growth.

Professional Experience

Freelancer

2024 – Present

Dedicated Front-End Developer with **3** years of experience delivering high-quality, pixel-perfect and responsive web applications for diverse clients. Proven track record of translating complex designs into clean, maintainable code while ensuring seamless user experiences across all devices.

Key Responsibilities & Achievements

- Developed and deployed custom, responsive websites using HTML, CSS, and JavaScript, frameworks (React).
- Collaborated directly with clients to define project requirements, timelines, and technical specifications.
- Optimized web performance, reducing page load times through efficient coding practices.
- Ensured cross-browser compatibility and mobile-first responsiveness for all delivered projects.
- Managed full project lifecycles, from initial wireframing to final deployment and maintenance.

Examples

• **MyMoney - Financial Management Tool**

Tech Stack: HTML, CSS, JavaScript, IndexedDB.
